FORTIETH YEAR

GRIMSBY, WEDNESDAY, SEPTEMBER 2, 1925

\$2.00 Per Year—5 Cents a Copy

## SPEAKS WELL OF GRIMSBY HIGH SCHOOL ACCOMMODATION

Acting Reeve Carscadden of Township of Saltfleet Advises Pupils of That Municipality To Attend Local School In Preference To Hamilton—Fees and Car Fare Less.

Stoney Creek, August 31.—In respect to high school accommodation for Saltfleet pupils this year, Acting Reeve Carscadden, when interviewed this morning, said the children could attend either at Hamilton or Grimsby, but advised enrollment at Grimsby. In either case fees will be paid by the county, but the charge per pupil at Grimsby, it is estimated, will be about \$70 per year less than at Hamilton, and the advantage of this will be understood readily by ratepayers. The charge per pupil at Hamilton, fixed by recent agreement between the county and the city board of education, will be \$170, whereas the Grimsby charge will not exceed \$100, it is believed. There will be four forms at Grimsby this term and the tuition offered is equally as good as that in Hamilton. People living in the eastern section of the township, the acting reeve pointed out, should find a distinct saving in car fare as well as more desirable environment for their children.

## RIGHT BACK AT 'EM GROCERY CHANGES

CORN IS CLIMBING—Woodstock, Aug. 28.—(Special.)—Iowa has a rival for the tall-corn honors in East Oxford and Blandford. James Rintoul of East Oxford exhibits stalks of Golden Glow, many of which are about equal height, at 13 feet 4 1/2 inches. Albert Lambie of Blandford, with the same variety, has stalks of about the same height, the tallest 13 feet 4 inches.—Toronto Globe.

ANOTHER "NEW FOREST."—Grimsby, Aug. 28.—(Special.)—In The Globe of Thursday Blandford and East Oxford Townships, in Oxford County, were boasting some tall corn—43 feet 4 1/2 inches. W. J. Drope, Past Grand Master of A.F. and A.M. at Grimsby has a field of corn that will average well up to those figures and has several stalks at Lake Lodge that measure 13 feet 11 inches, and the foreman thinks that if he looked through the field he could get some even much taller.—Toronto Globe.

## SETS CLOCKS BACK

The first move in St. Catharines that heralds the coming of King Winter is scheduled to be performed on the evening of Saturday, Sept. 12. Just before retiring on the evening of that day the citizens of St. Catharines are expected to set their timepieces back an hour as standard time will be in effect on and after Sept. 13. Port Colborne will revert to the old time one week sooner.

## VISITS GRIMSBY AFTER LONG TIME

Miss Mable Tyler who formerly lived at a Andrews rectory, the then home of the Rev. Canon Reed, and who left Grimsby about thirty years ago to reside with an uncle in London, England, paid a short visit here over the week-end renewing acquaintances. She was the guest of Mr. and Mrs. Thomas Smith, 28 Robinson street north.

Miss Tyler was accompanied by her uncle Mr. Mackie, of McMillans, the big publishing house of London. Mr. Mackie is on a business trip to the firms representatives in Toronto and New York.

Mr. Mackie and Miss Tyler sail today on the Mauretania from New York.

## ST. CATHARINES COMPLAINS OF BEING LEFT OFF THE MAP

The following from the St. Catharines Standard, sounds reasonable, but the Standard, Major Bell, and the "helpful correspondent" must not overlook the fact that the Niagara District is the most poorly advertised district—for its opportunities—that one can find. Let's waken up some of our own people and perhaps The Globe will hear the noise and take a peep out of its shell.

### AN OMISSION THAT HURTS.

"An unknown but helpful correspondent sends to the Chamber of Commerce the Globe Motor page of August 29th, showing nearly every Ontario city but this one in its panorama of lakes and routes. Already the Chamber had taken up this extraordinary map with The Globe Publishing Company. 'There is no excuse for this sort of thing excepting that the artist may have had a "Toronto" and not an "Ontario" education in geography,' states Major Bell.

"We are constantly up against this sort of thing and the worst offender is the Ontario Government who in their new folder merely state that "a highway" runs through this city. In this instance pictures and publicity were submitted to Mr. Carl Hele, secretary to Premier Ferguson, months ahead of time but failed to obtain recognition.

"The Ontario handbook does not even give the Port Dalhousie-Toronto boat trip mention. These things are the constant care of the Chamber, but the only reply ever vouchsafed to the protests came from a particularly candid Toronto newspaperman, who said: "Never heard much about St. Catharines in the past, begin to notice it lately. You had the Chambers of Commerce of the Empire and the British Association of Science visit you, did you not?"

"It is to be hoped that the plans now under way will, as time goes on, develop a greater geographic consciousness in both Parliament buildings and The Globe office." Major Bell concluded.

## MAN DROWNED AT THE BEACH

Harry Pedley of Toronto Succumbs To Apparent Heart Attack—Leaves Wife and Child.

Suffering a seizure of the heart, it is believed, five minutes after he entered the waters of the lake near Grimsby Beach on Sunday, Harry Pedley, young married man of 127 Wallace avenue, Toronto, succumbed two hours later.

With his wife, their young child, and a friend, J. Reid, 122 West Lodge, Toronto, Mr. Pedley, who was 24 years of age, came to Grimsby Beach two or three days ago for a short visit. At noon Sunday the two men decided to go bathing in the lake. They had been in the water but a few minutes when Mr. Pedley gave a cry and was seen to be in distress. He sank beneath the surface near the pier. Another young swimmer succeeded in getting the body to the wharf within a minute or two.

Mr. Pedley was still alive, but appeared to be unconscious. Dr. R. A. Alexander was summoned, and Dr. Murray of Toronto was also present, and every effort was made to resuscitate him. A call was sent to the Hamilton fire department for a pulmotor, and Chief James, with Captain Cunliffe, first-aid expert, of the department, hurried to Grimsby. The chief's car reached here within 40 minutes. His rescuers worked over Mr. Pedley for another hour, but without avail.

He is said to have been a good swimmer.

County Constable J. O. Konkle took charge of the remains, and had the body removed to G. A. Payne & Son's parlors at Grimsby. An inquest was deemed unnecessary.

The funeral will take place tomorrow, Thursday, to Queens Lawn Cemetery, and will be private.

## OSCAR KONKLE WILL ERECT 65 STOREY BUILDING IN NEW YORK

Former Grimsby Man Feels Grateful To Providence For Recovery of His Son from Illness and Will Erect Hotel on Novel Lines—No Liquor, No Smoking, No Sunday Papers To Be Allowed.

New York, Sept. 1.—New York's proposed monarch of skyscrapers which is to be sixty-five stories high and tower eight hundred feet above the street—eight feet taller than the Woolworth building—is to be a token of Oscar E. Konkle's gratitude for the recovery of his son from a serious illness, Mr. Konkle said today.

The major portion of the structure, planned for Broadway at

## ILLUMINATION TO END OF YEAR

It is the purpose of the Board of Control for Niagara Falls Illumination to continue the present nightly display at least until the end of the year, and the colored lights will be shown each night as usual—weather permitting. The above exceptions refers to spray conditions, over which there is no control.

## JOLLY EVENING

One of the most enjoyable entertainments held in Winona in some time took place on Saturday night, when Harry and Mrs. Cox were hosts to members of the men's and women's Orange lodges of Stoney Creek. The guests, including a number of local residents, numbered about one hundred and fifty and they were delightfully received on the lawn, brilliantly illuminated and decorated for the occasion. Jollity was the keynote of the evening, full of music, laughter and song. Rev. Mr. Cree, relieving at St. John's Church, gave a very instructive and interesting address on fraternalism. A dainty lunch was served and an old-time square dance on the lawn brought the happy evening to a close.

## PLUM GROWING

Speaking of plum culture in Ontario the Dominion Horticulturist in Bulletin No. 45, which is devoted to the subject generally, says that the climate of the western section of the province is suited to the culture of both European and Japanese plums. Along Lake Huron the European plums do well. Sometimes low temperatures in winter and spring lessen the crop. In eastern Ontario only the hardiest European plums need be tried. It is only in an occasional year that there is a full crop of these even in protected places, the winter being too severe. The native and American varieties do well in eastern and north central Ontario and early varieties bring good prices. In Northern Ontario the earliest native varieties should be tried. Spraying is a general necessity. Taking one year with another, the Horticulturist adds, there is a fair profit in plums in Ontario. (Issued by the Director of Publicity, Dominion Department of Agriculture, Ottawa.)

## TELLS OF DEATH OF MRS. S. G. CLAY

The Pas, Man., Aug. 27.—Details of the death of Mrs. S. G. Clay, wife of Sergeant S. G. Clay, of the Royal Canadian Mounted Police, at Chesterfield Inlet, several months ago, were given today by Constable J. Starworthy, who arrived here with a party from the far north. Mrs. Clay died of injuries when attacked by fifteen vicious husky dogs.

It was Constable Starworthy and Corporal R. Penry who beat off the dogs that attacked Mrs. Clay. Constable Starworthy heard the screams of a woman and the howls of the dogs, and, rushing out of the kitchen of the detachment barracks, saw Mrs. Clay stretched on the ground and the animals tearing at her. He and Corporal Penry grabbed heavy sticks and clubbed them off.

Mrs. Clay was still alive, but her right leg from the knee down had been stripped of its flesh. Knowing there was only one chance to save her life, Mrs. Clay consented to have her leg amputated above the knee. Injection, however, set in, and Mrs. Clay succumbed. Sergeant Clay has lived in various parts of the Arctic for 20 years. There were no children.

The dogs which attacked Mrs. Clay were immediately shot.

## BOOKS \$8 TO \$10

The Independent has received an enquiry as to how much the necessary books for first year students at the high school cost. The answer is between \$8 and \$10.

## HARRY JEWSON IS CALLED BY DEATH

Well Known Musician Dies In Hospital On Saturday Night After Undergoing An Operation.

A gloom was spread over the community on Sunday at news of the death of Harry Thornton Jewson, L. Mus., which took place in St. Joseph's hospital, Hamilton, on Saturday night, following an operation. The late Mr. Jewson was born at Scotland-on-Tees, Durham, England, in 1860, and for many years was organist and choir-master of St. Andrew's church, Aberdeen, Scotland. He came to Canada about 20 years ago, and was married to Miss Edith Lee, of Ridgeway. To this union four children were born: Ethel, Olive and Phyllis, at home, and Miss J. W. Dancy at Niagara Falls, N. Y., all of which he leaves to mourn his demise; also his wife, one brother, J. W. Jewson, of Fort Erie, and Mrs. Sanderson, Stockton, England, sister of deceased. The late Mr. Jewson will be greatly missed among his wide circle of friends. The funeral took place from his late residence, 3 Fairview avenue, on Tuesday to Queens Lawn cemetery.

## HAS ADVT. COPIED

On Aug. 5, V. W. Rock, optometrist, in his advertisement in The Independent had a copy of the guarantee that goes with Kryptok glass. In the September issue of The Imperial National Optical News, the advertisement is reproduced with the comment: "Why not follow suit? Here is an advertisement that appeared in the Grimsby Independent."

## PAAVO NURMI GETS REWARD AS REAL AMATEUR SPORTSMAN

Here is an editorial from the St. Catharines Standard that is to the point—if it does not go clear over the heads of some so-called "amateur sports."

### NURMI A KNIGHT

Paavo Nurmi, breaker of more than 30 world's records at short and long distances and described as "the greatest athlete the world has ever known," has received his reward. It does not lie in the amount of money that he might have received for his phenomenal performances upon Canadian and United States tracks during his visit to this continent, but in the plaudits of his fellow-Finns and in the conferring upon him, according to Helsingfors advices, of Finnish knighthood and of membership in the Order of the White Rose, two of the highest distinctions to which a Finn can attain. President Aelander has granted him these honors "in recognition of his advancement of Finnish interests through his athletic prowess."

Undoubtedly Nurmi, he of the slimly-built figure and steel legs, is deserving of these honors and of any others which the Republic of Finland may have handy. He is an athlete of which any country might feel proud and his feats have brought that little-known country more advertisement than any other circumstance within recent years. Any man who is born a weakling as Nurmi is reported to have been, who can develop himself into the great athlete that he is by long hours of exercise and proper living, and who can, moreover, remain an amateur in spite of the most tempting offers that possibly any amateur has ever received, is well worthy of recognition and the government of Finland has done simple justice in marking him for distinction. The world admires Nurmi, and the world will join in the congratulations which are being showered upon him.

## WILL THEY NEVER STOP BEING —?

(By Mille)

When we started this we wrote a heading "How Long, O Lord, How Long?" But it did not seem to fit, and again it seemed a trifle sacrilegious to apply a biblical quotation to this sort of subject. So we just wrote as above and leave the blank to you. You can put in "damned fools," "childish," just "common nuisances" or what you like.

There are certain rules in life that common sense tells us to follow. And there are certain business rules that are common. Again there are business rules that some wonder at until they know the why of them.

Such a rule is—and has been for a long time—in force with regard to the question of making the telephone

that you are not supposed to ask; and are not to be answered.

Anyone with an ounce of common sense can understand that while the operator is answering that fool question, she could be answering a call of some moment. And the writer, for one, objects mightily strenuously to paying the telephone company to hire extra women to answer questions of that nature.

A whole lot could be written on the "fool question" subject, but four words should be sufficient: "Do not ask them."

## ESSEX MEN COMING

Eighty auto loads of Essex County farmers (not less than 120 women and 221 men) will make a tour of this district on Thursday and Friday, motorizing from Toronto on Thursday, and continuing their trip from St. Catharines to Niagara Falls on Friday. During these two days the party will be under the guidance of W. S. Van Every, Lincoln Agricultural Representative. A dance has been arranged for the party at the Welland Inn, St. Catharines, on Thursday night.

## RETAILERS SPOILING SALE BECAUSE OF GRASPING WAYS

If the fruit growers of the Niagara District could ever get together and form a co-operative concern that was co-operative, that would get the fruit from the grower to the consumer without a multitude of profits in between, they would accomplish something.

We have had one association after another. They all start out with a great hurrah—but they slip. They lose sight of the producer to consumer side. They do not get out among the consumers. They expect one man to sit in an office and talk to a hundred thousand fruit eaters—talk through commission houses and retailers.

And to add to the mess nearly every Tom, Dick and Harry is trying to rush "green goods" onto the market.

The above is the result of reading three short items in the Market Bulletin issued on Saturdays by Market Commissioner Grant of Calgary, and it hits the mark here as well as there. The items are:

There is no demand for tomatoes locally, and will not be until after the first killing frost.

Tomatoes are coming in volume. The semi-ripe are mostly on the green side. A car of ripe arrived from the dry belt, but these were too ripe and a large proportion fell down.

Cantaloupes are offered in abundance, and are mostly from B. C. They are moving slowly and we think if the retail trade would sell at a more reasonable price the consumption would double; so far they have failed to grasp the fact that these cantaloupes are grown in B. C. in abundance and quick movement is necessary because the crop is coming on fast. The price that most of the retailers are selling at is out of proportion to their purchasing price, sometimes over 100 per cent profit being asked.

## R. J. GORING SELLS BUSINESS

Roy J. Goring, well known St. Catharines business man, has just disposed of his business to H. C. Wallace, of Toronto, the deal involving an amount in the neighborhood of \$50,000. Mr. Wallace, who has been in the dry goods business in Toronto, will take possession on September 1st.

Mr. Goring went to St. Catharines three years ago from Smithville, purchasing the business of the late John M. Hill. While he has not yet decided on his future plans he intends to make St. Catharines his home for the present.

Asked if he intended entering the political ring and becoming the Liberal nominee for the Federal House, Mr. Goring emphatically declared he had no such thought in mind. He is President of the St. Catharines Association.

## BIG FAMILIES

At the C. N. E. Saturday, Sept. 5, entries for the "Big Family" contest, arranged by the Canadian Manufacturers' Association for Manufacturers' Day, have poured in at C. M. A. headquarters. Among the latest to arrive is that of the Mark Petrie family of Hamilton, which consists of fifteen children all born in Canada. The parents were originally from Cape Breton.

This last entry brings the total number of contestants to 339 persons, with the average per family remaining at twelve. The increasing number of entries has necessitated special arrangements on the part of the Special Committee, and it is announced that the judging will take place on the afternoon of Manufacturers' Day in a special pavilion to be erected just to the west of the Manufacturers' Building.

An old fashioned doctor is the kind who tries to find out what's wrong with you, instead of calling in two or three of his friends to discuss the matter.

## FACTS AND FANCIES BY FRANK FAIRBORN (Jas. A. Livingston)

A great deal of attention is being paid at the present time to tariffs, embargoes, etc., as between Canada and her countries, and Mr. W. Oscar Sealey has been broadcasting his ideas all over the Dominion on tariffs, embargoes, railway rates, etc., all of which I heartily agree with.

At the same time, another Canadian, Mr. J. J. Gibbons of Toronto, has been publishing letters in the press addressed to the Right Hon. W. L. Mackenzie King on the subject of the tariff and similar problems, and I think that one of his letters on the subject of raw materials is worthy of a place in these columns.

There is not the slightest doubt that Canada has been most profligate in the matter of her raw materials, and Mr. Gibbons' letter on raw materials is most timely. It is as follows:

"Some nations make themselves rich and populous by taking materials, that are themselves of little or no value, and fashioning them into articles of great value by the application of their own skill."

"A piece of clay is worth nothing, but when converted into a piece of artistic pottery, it may easily sell for several dollars. A piece of pig iron is worth little more than the piece of clay, but when converted into watch springs it is worth a fortune!"

"Canada has a great abundance of materials that she is selling mainly as raw materials, thereby enabling other countries to profit at her expense."

"She is selling her forest products in the form of pulp, or as logs, timber and rough lumber, when she might be selling a much larger proportion of them as paper, or as highly finished articles of wood."

"She is letting United States millers take her hard wheat, and make it into flour to supply their own and foreign markets, when she might be supplying those markets herself by doing all the grinding in her own mills."

"She is inviting United States manufacturers to help themselves to her ores, so that they can make them into metal products to sell back to her, when she might be making them into metal products herself and forcing the United States consumer to buy from her."

"As long as Canada pursues that policy she is blinding herself to her opportunities—stunting her own growth. She is like a driver trying to run his car in low gear with the brake clamped on, wondering the while why all the other cars on the road are sailing past him."

"Other nations, being deficient in those materials, must buy either the materials themselves or the products made from the materials. They prefer to buy the former, and employ their own labor in manufacturing for their own requirements. So they bluff Canada into selling them the materials, by putting high duties on the products made from the materials."

"All Canada needs to do to call their bluff is to put high duties on the finished products that other countries sell her—then tender or await an answer."

Imagine if you can what the result would be, if—as Mr. Gibbons suggests—all our pulpwood and other forest products were manufactured at home—stupendous.

Imagine, if you can, what the result would be if all our wheat—now ground in foreign countries was ground at home—stupendous.

Imagine, if you can, what the results would be, if—as Mr. Gibbons suggests—all our ores were manufactured into the finished product in Canada—stupendous.

Yet all this could be brought about if the men of this little nation just set their minds to it.

If Canada only had the courage to say: "Where the raw material is, there let the manufacturer be also!"

Oh! What would the harvest be?

Oh! What would the harvest be?

## BUY CANADIAN GOODS

(La Tribune, Sherbrooke, Que.)

In order to proceed successfully, the sale of Canadian products must necessarily be supported by sufficient publicity on a vast scale. In fact, it is by publicity that our fellow citizens must be induced to buy freely in their own home towns, in their own more freely in their own home towns, in their own provinces and country for their everyday needs. Thus shall we reduce progressively the figure of our imports and increase that of our exports.

## Notes and Comments On Current Events

(By PETER PETERKIN)

The Hon. Mackenzie King hesitates whether to go on marking time and enjoying the sweets of office for another year, or take the advice of some of his more sanguine supporters and bring on an "immediate" election. During the last four years there has been a government by consent, and such a government has no real sense of power, being forced to perpetually consider its own security, so that it dare not risk real contest on any question of great importance.

Apparently this unfortunate condition of affairs suits the peculiar temperament of our present premier and he has shown considerable skill in playing off one faction against another so as to stay in power. Meanwhile, however, the country suffers, for neither he nor his government have made any strong constructive attempt to solve and deal with the tremendous problems pressing for an immediate satisfactory solution before Canada can enter into the state of prosperity to which she is clearly entitled.

Our chief problem are the tariff, the railways, immigration, taxation and the reorganization of our civil government in the direction of greater efficiency and lower costs. And in so far as the present government has attempted to deal with these problems, it has either made no progress at all or has blundered. Therefore it seems to me that the people of Canada need a change, or at least the opportunity to make one, and so the quicker the general election comes the better.

Canada has practically made little or no progress since the end of the war, and if the election results in a new government possessing a good working majority we will at least be able to do something; it can change the tariff, decide about the future of government railways, one way or another. It can make a serious attempt to reduce taxation, and it can adopt a sensible immigration policy. The chief need is for a government of authority and courage which can put the civil service and public spending on a sound business footing.

In the words of the Simcoe Reformer: "The country is in dire need of a government composed of independent-minded, sound-thinking business men with a comprehensive understanding of national problems and a will to solve them as speedily and as satisfactorily as possible. The country should see that it gets what it requires." The national welfare demands an election and I think that at the present time the Conservative party, while it may not possess all the requirements demanded, comes much nearer to it than any of the other parties, and should therefore be given a chance to see what it can do.

Every day proofs multiply of the injurious effects of excessive taxation. In a recent issue of the New York Times two suggestive news items appeared side by side. The first announced that the taxes levied on railways had now reached the huge amount of one million dollars per day! This represented an increase of \$20,000 per day over the previous year. The second announced that the western railroads were seeking a 20 per cent advance in the rates on live stock. Here we see the working of the vicious circle and how effect inevitably follows cause.

The railways, of course, have no occult means of meeting fresh burdens laid on them by bodies having the power to tax, and are therefore compelled to fall back on the rates structure to obtain a larger revenue. The common people, accordingly, who are the consumers of the things taxed, ultimately foot the bill, and this can only be done at the expense of their savings. And every dollar thus extracted from the earnings of the people is a dollar less available for productive purposes.

Jury men are now to receive palatial accommodation in Montreal. Private bedrooms, baths, and a billiard parlor have been provided, and, no doubt, a private golf course and moving pictures will follow. In between all these counter attractions some time, it is to be hoped, will be found for consideration of the evidence.

The blame for agricultural decline in England has been placed on the female sex and the lack of rural domestic science by Mrs. Margaret Wintingham, a former Liberal M.P., who declared: "The farmer's wife is not so interested in doing the adjuncts of farm work as she used to be, and that is one of the reasons why agriculture is declining." It is a good thing that it was not a mere man who said that or it would have spelled trouble.

The pastor of the Church of Advanced Thought in New York expresses the opinion that the spirits in the great beyond have access to earthly liquor supplies. If this were really true death might lose its sting for some, but what about the poor living bootlegger?

An old gentleman was a trifle bewildered at an elaborate wedding: "Are you the bridegroom?" he asked a melancholy-looking man. "No, sir," the young man replied. "I was eliminated in the preliminary try-outs!"

## One Farmer's Chortle

My food and my appetite both are good—  
I've the world by the tail with a downhill pull!  
I've made more coin than I thought I could—  
I've the world by the tail with a downhill pull.  
I can look in the face of every man and child—  
Nay more, the woman, both true and wild—  
With a conscience spotless and revealed:  
I've the world by the tail with a downhill pull.

I've given the goods and taken the price—  
I've the world by the tail with a downhill pull.  
I have lost my profit once or twice—  
I've the world by the tail with a downhill pull.  
The things I've bought have soared and soared,  
And grain has slumped till all our board—  
Was gone, but conditions will be restored—  
I've the world by the tail with a downhill pull.

I know some farmers are plumb and blue—  
I've the world by the tail with a downhill pull.  
But that condition is nothing new—  
I've the world by the tail with a downhill pull.  
A pessimist only has his own complaint:  
It's not how it rains, or how business ain't—  
That smears all his view with cerebian paint—  
I've the world by the tail with a downhill pull.

So long as I'm honest in service and goods,  
I've the world by the tail with a downhill pull.  
I'll whistle because I am out of the woods—  
I've the world by the tail with a downhill pull.  
I never will weep over what I can't help,  
The dog of despair I'll not utter a yelp—  
Though hurt in the fight I'll not utter a yelp—  
I've the world by the tail with a downhill pull.

Better even than physic is fresh air or  
All work and no play, of an invigorating nature,  
As least, is at the bottom of many of the common ills,  
Get well as physical breakdowns that are so common. Get  
after that leathery liver of yours, or, fellow, and our  
family, your help as well as your business associates  
will see it in their heads and wonder what has happened  
to you. After all, whether life is worth living depends  
upon the "liver."

Wife: "Did you notice the chinchilla's coat on the  
woman sitting in front of us at church this morning?"  
Husband: "Er—no. Africa I was doing most of the  
time." Wife: "I'm a lot of good the service did on!"

Sunday School Teacher: "Robert, who were the  
Pharisees?" "The Pharisees were people who were the  
fasted in public and in secret devoured widows houses."

## SLAT'S DIARY

By ROSS FARQUHAR

Frid y—well it seems like as if pa  
is undoubtedly the most tack-  
leest person in  
this hole town.

Mr. Ellis and  
him has always  
been the best of  
friends but now  
that is a thing  
of the past

tests. To day  
Mr. Ellis says  
to pa that he  
was a going to  
take his wife to  
the dr. becaz he  
didnt like her  
looks here of  
lately. And pa  
sed. Gosh El-  
lis I dont blame  
you neather. I  
never did neather.

Saturday—Ma ast Mr. Gillem if he  
still continued to keep up taking a  
cold shower evry morning. And he  
replied back and sed. No he had  
gave up taking cold showers in  
the morning and he eats a Grape frute  
in sted of it. becaz it saves so much  
time and gives the same affect.

Sunday—They was lotsa Xcit-  
mint in re neighborhood today becaz  
Miss Gentry returned back from a  
trip to Spain and Yurrop & also sum  
foran countrys. She sed the people  
over there was very brite she thot  
becaz for instants in Spain even the  
little children cud all tawk reel good  
Spanish.

Monday—Ant Emmy says she has  
ben making a study of how long  
fozes lives and she has found out  
that a certain kind witch is called  
Centenarians lives longer then most  
enny other class of people in the  
yuman race

Tuesday—Jane seen me on the st.  
today and she sed she had a compel-  
ment to give me and I sed Go a hed  
and shoot. Then she sed she over  
herd my teacher telling a nother lady  
that I wassent near as dum as I use  
to be sum time ago.

Wednesday—We had kwite a discus-  
sion at the table this evning. Ant  
Emmy sed she was sure that Paddy-  
wack was a small city in Russia. Pa  
he lets out a laff. But I hep quiet.  
Becaz I dont teely no whe'e it is  
myself.

Thursday—Pa made a nother what  
ma calls a Fox Pass tonite when we  
had Co. to call in the evning. I of  
course was discussing different  
kinds of women and she ast pa if he  
didnt think that men really liked the  
talkatiff women better then the others.  
Ang pa up and sed. What others.  
Went to bed early.

Friday—We had kwite a discus-  
sion at the table this evning. Ant  
Emmy sed she was sure that Paddy-  
wack was a small city in Russia. Pa  
he lets out a laff. But I hep quiet.  
Becaz I dont teely no whe'e it is  
myself.

Saturday—We had kwite a discus-  
sion at the table this evning. Ant  
Emmy sed she was sure that Paddy-  
wack was a small city in Russia. Pa

## Banish the Hand Pump.

In primitive countries woman is regarded somewhat as a  
beast of burden. She is subjected to all sorts of drudgery,  
does practically all the work, and her lot is hard and dis-  
couraging. This custom is rightfully regarded as inhuman  
and uncivilized.

Yet thousands of women in this country today are  
shackled to the old-fashioned hand pump. In many cases  
they carry the water considerable distances after pumping  
it. The amount of time and energy lost is incalculable.

## Empire Duro Water Systems

have liberated thousands of women, and men, from the grind-  
ing toil of pumping and carrying water. They have brought  
comfort, cleanliness and health where drudgery, dirt and dis-  
ease prevailed before.

Duro systems give you all the con-  
veniences of city water service. Run-  
ning water under pressure in kitchen,  
bathroom, toilet, garden and barn is at  
your service.

Compact, powerful, and automatic  
—a Duro system is easily installed in  
old or new homes and costs less than  
it a day to operate. Driven by either  
electric motor or gasoline engine.

Duro Systems are made in many sizes and  
styles. Ask us for an estimate of cost.

Distributed by the Empire Brass  
Manufacturing Company, Limi-  
ted, London and Toronto.

## MAINLY FOR WOMEN

### To Clean Paint

White paint that is unvarnished should be cleaned with a flannel, warm water, and a little whiting on the flannel. Dark paint which has become shabby will look like new if rubbed with linseed oil and vinegar, equal parts, and polished well with a soft cloth. Grained wood should be washed with cold tea, and thoroughly rubbed with a dry, soft flannel till bright.

### Vegetable Chop Suey

Mix a cup each of shredded cabbage and fine-chopped celery, add two medium onions, grated, and one cup and one half of field mushrooms, first browned in butter on a hot pan, then roughly chopped. Season with one teaspoonful and one-half of salt and one-half, a teaspoonful of pepper, moisten with thin cream and bake in a covered dish for thirty minutes.

## BUT THE WOMEN FALL FOR HIM

Recently we came across this paragraph: "I would rather have my health, own a flat-bottom fishing boat and have the confidence and friendship of a family dog, than be the biggest bluff on Broadway."

We know a man who wears loud clothes, a flashy diamond, and, by his talk, attracts much attention in a certain city office building, but about once in so often a collector comes around and asks the elevator starter where he can find this big bluff.

We also know a man who has made his pile, who is in the clear, and has enough laid away in conservative investments to live comfortably the rest of his life and leave a tidy income to his family after he is gone. This man has often said to us, "It doesn't pay to fly too high."

Which of these men is right? The law of gravity still works. Fly high and you light low. It may be fun while you are up in the air, but it's fatal when you fall.

A steady income, a good position, just enough responsibility to make you resourceful, the friendship of a few old-fashioned folks, and you'll have it all over the swell guy who is living on borrowed capital.

And then another thing that most folks know. The more success a man has—the more money he has—the more modest he is. The flashy fellow is almost always a fakir.

## MUSHROOMS

This is the season when wild mushrooms are being gathered in large numbers in the woods and open fields. But the only safe way to avoid poisoning through these is to get some good book on mushrooms and identify each specimen or have them identified. Some of the popular tests are dangerous. Although the number of species that cause death if eaten is not large, nevertheless a considerable number contain minor poisons that might prove fatal to children or those of delicate constitution.

One popular but very dangerous rule to ascertain the edibility of the varieties gathered is that if the skin can be peeled from the cap it is good. The most poisonous varieties will peel. Another rule is boiling specimens in salt water. No amount of boiling in fresh or salt water will remove poison from the deadly varieties that are to be found in considerable numbers now.

One of the best rules is to learn to identify one or two edible varieties and stick to them. A mushroom, no matter what variety, that has the least speck of decay on it is absolutely unfit for use.

The Ontario department of agriculture issues a good pamphlet on this subject. It can be had on application to the department at Toronto.

Pan pork chops in the oven after searing on both sides, a slice of tart apple laid on top of each.

## ENGLAND'S QUEEN SETS A FASHION

London Aug. 18.—When Queen Mary sets a fashion—which is very rarely—she generally catches on with the smart set. The latest vogue which the Queen has started is the wearing of small real jewels in her hat.

Several society women at the recent race meeting followed the fashion but on a larger scale the jewelled ornaments being in the shape of valuable brooches.

## Character Reading From Photographs

The power of reading a person's character from the photograph is not only interesting but at times very useful, as for instance when an employee is to be engaged from a distance. To form a judgment divide the pictured face in half. The lower part gives the key to the person's conscious self; the upper the subconscious self.

Full and developed lips above a full and rounded chin will tell you that the likeness is one of an intensely emotional and impulsive person; one who thinks much of all things material; one who will make sure of the pleasures of life.

Thin, compressed lips and a small chin tell unmistakably of incapacity of real feeling, of coldness of temperament, lack of sympathy, indifference to beauty, meanness of soul. One authority says that blonde women of this type have little regard for the truth; and are apt to take a wrong meaning from other people's actions.

A well-balanced, well-shaped mouth means a well-balanced disposition, it belongs to one who is capable of deep feeling, but knows how to control the surge of emotions; who can be generous without being improvidently lavish, and whose every action is tempered with common-sense.

Study the lower half of the face and "read" it in relation to the material things of life. Then turn your attention to the upper portion, which stands for all things related to mind and spirit.

See whether the forehead is low and narrow, indicating a small and constricted mind; or low and broad, giving more breadth of understanding, though denoting a practical rather than an imaginative mind; or is it, perhaps high and lofty, the brow of the noble and the great in mind and deed?

In summing up a photograph, the lack of variety of expression in the eyes is made up for by the fact that you may more thoroughly scan their shape, their depth and their expression, for you may gaze at them longer than it is polite to gaze into the eyes of the living original. If there is a smile on the lips of the portrait, seek its counterpart in the eyes. The only sincere smile is given with the eye, and this shows a kindly, sunny temper.

Small, close-set eyes with a low forehead denote the man of action, often the fanatic, while the wide-set, open eyes stand for broadmindedness, vision and imagination.

## Athletic Shoes

Girls can go in for athletics without spoiling the Venus-foot by wearing brogues and other low-heeled types of footwear. Such is the dictum of Mrs. Elliott-Lynn, vice-president of the British Women's Amateur Athletic association.

In her latest book, Athletics for Women and Girls, Mrs. Elliott-Lynn says there is no need to wear the flat-footed so-called "athletic" shoes copied from men's footwear, and which are undoubtedly spoiling the shape of many athletic girls' feet.

The author says she has always worn high heels, and has never seen "any really ill-effects" from moderately high heels worn in everyday life. For prolonged walking, or for actual athletic contests, of course, lower heels are desirable, she says.

The perfect athletic foot is beautifully arched. One should be able to see daylight under it when standing bare foot. If one sets one's eyes on a level with the surface on which it rests. Even this point of Venus is not spoiled by the much-abused high heel which adds to the balance and poise of the wearer.

If one supports high heels, Mrs. Elliott-Lynn will say nothing to do with corsets, which should not be worn in general life. She says that "the foreign body of string and corset and whalebone destroys the natural wall of the human body. It being one of the things for giving thinness, says this authority, and "the sick, graceless, and unbecoming" on the ball-room floor is usually grateful to the "trick."

## TRY THIS

Before boiling corn remove a few of the outer husks, then the inside ones, and remove the silk carefully, bringing back the husk to the top. This adds to the sweetness of the corn.

## PEACH DAINTIES

Some Timely Recipes For Use of Popular Fruit

### PEACH DAINTIES

**Peach Cream**—Is a delightful and dainty dessert. Mash a cupful of canned fresh cooked peaches of rich flavor and put them through a sieve. Allow as much rich sweet cream as peach pulp. Sweeten to taste, mix and whip until you have a light foamy mixture. Heap up in steamed glasses and serve very cold with macaroons.

**Peach and Rice Custard**—Wash five tablespoons of rice in plenty of water and then cook until soft in two and one-half cups of boiling water. Now add 2 cups of milk, ¼ cup of sugar, yolk of one egg, 2 cups of crushed peaches, ½ teaspoon of nutmeg. Mix thoroughly and then bake in a moderate oven for twenty-five minutes. Cool and serve with fruit whip, using the white left from the egg and one-half glass of jelly. Beat until mixture holds its shape.

**Peach Pudding**—One egg, one scant cup sugar, pinch of salt, one cup sweet milk, one and one-half cups flour.

Add two teaspoons of baking powder to the flour and then beat all together and bake in two layers. Peel and slice ripe peaches and place between and on top of the layers. Add a generous serving of whipped cream just before serving. Strawberries may be used in this same recipe.

**Baked Peach Pudding**—Peel and stone peaches and lay them in the bottom of a deep pudding dish. Strew over them a cup of sugar and let them stand for an hour. Make a rich biscuit dough, adding more shortening than is needed for biscuit, roll it into a sheet, handling as little as possible, and lay over the top of the peaches. Put in the oven and bake, covered, for fifteen minutes, then uncover and bake to a golden brown. Serve hot with a creamy butter sauce.

**Peach Charlotte**—1 quart peaches, 6 slices buttered bread. Sugar to taste. Peel and stone the peaches. Put through the food-chopper and sweeten to taste. Line a pudding-dish with a layer of buttered bread and then a layer of the peaches. Continue until the ingredients are all used. Put a plate over the contents and put the dish in the refrigerator to chill. When time to serve, top with whipped cream, or use a sauce instead. For the sauce put peeled and stoned peaches through the food-chopper and sweeten. Chill. The Charlotte may be turned out of the pudding-dish and unmolded.

**Peach Short Cake**—Take 2 cups of flour, ½ teaspoon salt, 2 tablespoons sugar, 4 teaspoons baking powder, 3 tablespoons shortening, 1 egg, ½ cup milk or sufficient to mix a soft dough. Sift dry ingredients, rub in shortening, add beaten egg to milk and add to dry ingredients to make soft dough. Smooth or roll out one-half of the dough lightly. Put into greased, deep-fat tin; spread with butter. Cover with a half of dough which has been rolled out to fit pan. Bake in hot oven twenty to twenty-five minutes. Split while hot, and spread with mashed sweetened peaches. Cover top with quartered peaches and dust with powdered sugar. Serve with cream whipped or plain as you prefer.

**Peaches and Rice**—Put one-half teaspoon of salt and one cup of boiling water in top of double boiler. Place or range and add gradually one-half cup of rice, stirring with a fork. Boil five minutes, cover, place in under part of double boiler and steam until kernels are soft. Mold, chill and remove to serving dish; arrange halves of peaches around base and on top and sprinkle peaches with rolled, dry macaroons. Garnish with whipped cream sweetened and flavored with vanilla. Make and have ready tart or pie forms of flakey pastry. When needed freshen in oven, then fill the peach tart and baked pie crust with raw peaches and cover with sweetened whipped cream. This is delicious raw peach dessert.

**Peach Butter**—4 quarts of pared-and-cut peaches, 3 cupfuls of granulated sugar, 1 cupful of water. All peaches should be washed before paring. The paring can be used for making syrup. Cut into small slices; put into a porcelain lined kettle, and add the sugar. Let stand for fifteen minutes, and add one cupful of water. Put over a slow fire and boil slowly for one hour, stirring often to keep from sticking to the bottom of the kettle. If the peaches are hard or not very ripe, a little more water may have to be used.

**Peach Conserve**—1 lb. ripe peaches, pared and cut in pieces; 1 grated pineapple, orange and lemon; ½ lb. blanched and chopped almonds, ½ lb. seedless raisins. Put in the preserving kettle and boil until soft. Measure and to each pint of fruit add 1 lb. of sugar. Continue cooking at simmering point until the whole mass is rich and smooth and thick. Stir frequently to prevent scorching. Seal while hot in sterilized jars.

**Old Time Preserved Peaches**—Pare the peaches, cut them in halves and remove pits. Throw the peaches at once into cold water; make a syrup of one pound of sugar and one quart of water, stirring constantly until the sugar is dissolved. Drain the peaches out of the water, drop into the syrup, allowing four pounds of peaches to above quantity of syrup. Bring at once to a boil, then stand back on the range where they will just bubble, until they can be pierced with a wooden toothpick. Carefully place each piece in the jar, hollow side toward the center, and fill the jar to overflowing with the boiling hot juice, shaking the jar slightly or running the blade of a silver knife down to allow the juice to fill all space between the fruit and exclude the air bubbles. Work quickly and deftly. Screw down the lids tightly and turn the jars upside down, allowing them to remain in this position until the following day. In this way any possible leak around the cover will be discovered.

**Peaches Pickled**—If hard, steam them until tender; if soft, wipe them only; then pack them in jars. Take one quart of sugar and one tablespoon of cloves and broken stick cinnamon (tied in a bag) to each quart of vinegar. Boil it for five minutes and pour hot over the fruit; the next day turn it off, boil again, and pour hot on the peaches again; repeat once, seal up and put away.

**Sweet Peach Pickle**—Take white clingstone peaches, pare and stick with cinnamon bark and cloves, weigh them and allow one-half pound of sugar to each pound of fruit. Put the sugar into the kettle and wet with good vinegar. Let it boil to a thick syrup, add the peaches, let them boil until they look clear and stick to the jar, boil the syrup a half-hour longer, and pour over the peaches.

**Canned Peaches**—Wash your jars; wash rubbers; test rubbers for quality. Set empty jars and rubbers in pan of water to heat. Fill washboiler to cover jars two inches with water. Heat water in washboiler. Wash peaches, cut out rot spots. Put peaches in a square of cheesecloth or wire basket. Dip one minute in kettle of boiling water. Plunge immediately into cold water. Skin the peaches; leave whole or cut as preferred. Pack peaches in hot jars. Fill hot jar with hot syrup or boiling water. Put rubbers and tops in position. Tip jars tops; not airtight. Place jars on false bottom in washboiler. Submerge jars two inches. Let the water boil sixteen minutes. Start counting when the water begins to boil. Remove jars. Tighten tops airtight. If jars to discover leaks. If leaks are found change rubbers and boil again five minutes. Wrap jars to prevent bleaching. Store in cool, dry place. To make syrup: Three quarts sugar, two quarts water. Boil until sugar is dissolved. Strain off impurities. Keep it hot.

Mrs. E. T. McCubbins, of Brantford, has been spending a few days with her father, J. H. Ness and Mrs. Ness, 13 Oak street.

Mr. and Mrs. Albert Peed, Miss Marjory and Master Frederick of Detroit, spent the weekend visiting friends in Grimsby.

Miss Doris and Lois Wright, of Preston, have returned home after spending two weeks holidays in Grimsby.

Rev. Jas. and Mrs. Chapman, of Hespler, spent the weekend the guests of the former's sister, Mrs. T. E. Richards.

The Sunday school at Grimsby East will open on Sunday next at 2:30. It is hoped all will be on hand for this re-opening.

A. Orr, late of the Bank of Hamilton staff here, now inspector of the Standard bank of Toronto, was visiting in town last week.

Ernest P. Gilbert and family left on Wednesday for Sturgeon Falls, where he is taking up his duties as principal of the public school.

Mrs. James Forester, formerly of Grimsby, and Mr. and Mrs. Olive Doe and children, of Chicago, visited in Grimsby last week. They will tour the eastern States before returning home.

Beamsville firemen are making arrangements to hold a dance at community hall on the Friday night of the fall fair—Sept. 18. Their purpose is to raise funds for the purchase of uniforms.

Mrs. Robt. Harvey left last week for

Halifax to visit her daughter, Miss Grace Harvey accompanied her as far as Cobalt, where she has accepted a position on the teaching staff of the school board of that town.

A great suggestion of Corn roasts, Weiner roasts and toasted marshmallows has been seen in Jarvis Bakery Window the past week. The scene is depicted on the lake shore and the designer went to much effort to get the pleasing effect.

Mrs. W. L. Stephen with Strachan and Mrs. McNally from Hamilton, have returned from a pleasant trip to Haliburton, New Liskeid and Gowanda, and they were very much impressed with the wild but beautiful scenery of Northern Ontario.

The Central Garage, Grimsby, have taken over Roy Holdens garage on Ontario street and will operate it as a branch establishment, specializing in Ford and parts. Mr. Holden, we understand, purposes going south—Beamsville Express.

Mrs. Lena Viger, of Los Angeles, Calif., Mrs. L. J. Harrington and Alton Harrington, of Toronto, Mr. and Mrs. Enos Windsor of Exeter, formerly of Toronto, called on Mr. and Mrs. T. D. Muir, on Saturday. Mr. and Mrs. Windsor are leaving shortly for Russia to take up missionary work there.

Residents of the ridge road, between the Grimsby line and Fifty Mountain, will be glad to learn that repairs will be made along that thoroughfare at one. Road Superintendent Dewar arranged on Monday for preparation of the base, and stone will be laid as early as possible.

What might have been a very serious accident occurred Saturday afternoon, when Ira Hurst, of the Thirty Mountain, while coming down the Mountain at Grimsby on his bicycle, struck a large stone, throwing him heavily to the ground, cutting his head severely. He was taken to Dr. McMillans office, where his wound was attended to, after which he was taken home.

### WE MIGHT HAVE SOME BENEFIT

Chatham, Aug. 25.—The publicity which Kent County has been receiving as the result of the splendid crops this year is beginning to have its effect. A few days ago a Hollander who resides in St. John, N. B., visited the district with the object of arranging for the purchase of several hundred acres of land for the purpose of establishing Dutch colonies. He states that there are at the present time many young men in Holland anxious to purchase farms, but cannot do so in their native country, and that they would welcome an opportunity to come to Canada.

If the people of this district would waken to the advantages of advertising, the Niagara Peninsula would be getting some of this.

### SUES FOR DAMAGES

SMITHVILLE, Aug. 28.—John Keating, Dundas, son and administrator of the estate of John Keating, killed in an accident at Park and King streets, has issued a writ in the supreme court claiming unpaid damages from William B. Best, Port Dover, and Dr. R. N. Berry, M. L. A. Caledonia.

The accident happened April 25 and Mr. Keating died June 10. Mr. Best whose automobile hit Mr. Keating appeared in police court on a charge of criminal negligence and the case was dismissed. O'Reilly & Kay are acting for Mr. Keating.

### LIST OF DAYS FOR BIG FAIR

Wednesday, Sept. 2—Merchants' and Service Clubs' Day

## In The Churches

**BAPTIST**  
Rev. T. E. Richards, B. A., Minister  
Sunday, Sept. 6th

11 a.m.—Unified service. Bible school and church worshipping together. Communion service and reception of new members.

7 p.m.—Subject, "The text that made John Calvin."

Visitors always welcome.  
"The soul that sinneth is dying already."

The Sunday School in connection with S. Andrews Church will re-open on Sunday afternoon next at 2:30 p.m.

### SUMMER VACATION CHURCH SERVICES

Summer vacation services in the United Churches are announced as follows:

Date	Church	Minister
Sept. 6	St. John's United	Rev. F. S. Milliken

Services at 11 a.m. and 7 p.m.

### McNICH—SHEPPARD

Kitchener, Aug. 29.—A very pretty wedding took place at the home of the bride's parents, Kitchener, Ont., on Thursday afternoon, Aug. 27, when Miss Laura Lyon Sheppard, daughter of Mr. and Mrs. Frederick William Sheppard, was united in marriage to Floyd Emery McNich of Grimsby, Ont. Rev. MacKerach officiated. The bride was given away by her father and looked charming in a dress of orchid metal lace embroidered in silver, over pink crepe, silver slippers, and wore a coronet of silver leaves and brilliants. She carried a shower bouquet of Sweetheart roses and lily of the valley. Miss Alma Porteous, maid of honor, wore a becoming dress of apricot crepe, with mauve georgette and gold lace, and carried a bouquet of Ophelia roses. The groom was attended by his brother, Clarence McNich of Grimsby.

Mrs. Sheppard, mother of the bride, looked very becoming in a dress of grey crepe with georgette. Mrs. G. McNich, mother of the groom, wore a lovely dress of flat black crepe with chiffon. The house was beautifully decorated with gladioli. The bridal table was centered with Sweetheart roses and pink rosebuds. During the

## DISCOURSES OF INTEREST TO COME

Rev. T. E. and Mrs. Richards returned from their vacation last week, Mr. Richards taking charge of the services in his own pulpit on Sunday. At the morning service Rev. Jos. Chapman, of Hespler, delivered an excellent message on the subject of the "Potter and the wheel". At the evening service the pastor began a short series of sermons on the general theme "Texts that made our great Reformers" and delivered a helpful sermon on "Martin Luther's Text." Next Sunday night the subject will be "The text that made John Calvin, the Reformation at Geneva and the Presbyterian church."

## Rules and Regulations

1. That all colts must be led by halter or bridle, with the exception of 3-year-old colts in the Roadster, Carriage and General Purpose classes. These must be in harness. Draught teams to lumber wagons.
2. No exhibit shall be allowed to compete for more than one prize, except in specials.
3. All persons not members will be charged 50 cents admission to the grounds. Children under 12 years, 25 cents.
4. That no person shall be allowed to speak to the judges while in discharge of their duties.
5. That the committees be on the show grounds at 8 a.m. each day.
6. That all driving horses, colts, cattle, sheep and swine be on the grounds at 12 o'clock noon on the second day and remain till 5 p.m.
7. That all poultry, grain, horticultural products, home manufactures, all articles in ladies' departments, and all other articles intended for exhibition, to be on the grounds and in the shed at 10 a.m. on the first day and remain till 5 p.m. the second day. This clause will be strictly enforced.
8. That all cattle must be taken to stalls provided, and tied, as soon as brought on the grounds, or they will not be allowed to show.
9. That all judges shall commence the discharge of their duties at 12 o'clock noon, first day, except judges on horses, cattle, sheep and swine, who will commence their duties at 12 sharp on the second day.
10. That all articles remain (untouched by the owner or any other person) in charge of the committees till 5 p.m., second day, for public inspection.
11. Any person who attempts to interfere with the judges while in discharge of their duties, or who shall afterwards, on the premises of the Society, use any contemptuous or abusive language to any judge in consequence of any award made by him, shall forfeit his right to any premium to which he may otherwise be entitled, and shall be excluded from exhibition for one year thereafter.
12. A fee of 25c will be charged for each single or double team and 50c for each automobile taken on the grounds, except those belonging to members. All horses and vehicles not intended for exhibition, must drive on the grounds set apart for them.
13. No persons allowed to drive inside the circle while the judges are in charge of their duty, except when called on by the judges.
14. Any member exhibiting any article or animal not his own, shall forfeit the premium and be ineligible for membership for two years.
15. No person will be allowed to make more than one entry of each variety of fruit, honey, grain, roots, domestic articles or manufactures, ladies' department and fine arts, and such articles must be the production or manufacture of exhibitor or family for the year ending Sept. 17th, 1925, except where otherwise mentioned.
16. No person or persons allowed to sit or climb on any of the fences.
17. All kinds of gambling, theatricals, circus or mountebank performances, exhibitions or shows, huckstering or trafficking in spirituous, intoxicating drinks, goods, wares or merchandise, are strictly forbidden within three hundred yards of the exhibition grounds.
18. All stallions excluded from show and fair, except for racing.
19. In case of bad weather or other unfavorable circumstances, the Society will pay only such portion of the prizes as can be paid from excess of actual income over expenditure of year.
20. Any exhibitor in poultry may enter a protest against any award made by judge by depositing \$1.00 for each protest with the Secretary, said protest to be decided by American Standard of Excellence, and in case protest is not sustained, deposit to become the property of this Society.
21. The judges are requested to pass over all animals and articles which they consider unworthy of a prize.
22. In all cases of protest or dispute the directors' decision to be final.
23. Only 20 entries can be made for the \$1.00 membership fee. Over this number a fee of 5c will be charged for every entry. Membership fee and extra fees to accompany entries in all cases, or entries will not be taken.
24. Any person or persons found taking fruit, vegetables or any other articles while on the grounds, will be prosecuted.
25. Directors or members of committees must not display badges while exhibiting stock.
26. All persons must leave the hall at 5 o'clock. Only persons showing entry ticket will have permission to enter after 5 p.m. All entries will be handed to the exhibitor by members of the committees only.
27. \$1.00 will be retained from prize money for membership for following year.
28. All exhibits are at the risk of exhibitor.
29. No exhibitor shall be allowed to accompany a judge while he is in discharge of his duty.
30. All competitors exhibiting for Specials must see that the donor gets the goods, as the Society will not be responsible for the prize.
31. The Secretary will be at his office up to September 17th to receive entries. Phone 92.
32. All entries close September 17th, except race entries.
33. The Treasurer will be prepared to pay premiums on and after October 1, and all money not claimed before December will be retained by the Society. Suitable shelter will be provided for cattle.

**EXPLANATION OF TERMS**

**Arrangement**—Taste and skill in staging so as to attract attention and add to the general appearance of the exhibit.

**Color**—Bright, clear, well-developed color, characteristic of the variety.

**Commercial Value**—Standard known market varieties, as grown in and suited to the district, preferred.

**Form**—In all cases, except seedlings, refers to the normal type or shape of the variety, but in the case of seedlings it refers to shape as desired, in a commercial variety. A roundish apple is of the most desirable shape, and oblate and oblong apples least desirable.

**Freedom from Blemish**—Any injury by insects, fungus, bruises, loss of stem or other cause, lessening the value or appearance of the exhibit, shall be called a blemish.

**Polishing**—Fruit on exhibition shall have as much of the natural bloom as possible. Judges should discourage polishing.

**Seasons**—In collections it is desirable to have as long a season as possible represented by the varieties shown. Varieties past condition shown for the purpose of lengthening the season will not, however, score as high as apples in condition though of later season.

**Size**—While size in some cases indicates care and skill in production, it is not usually found with the highest color and with freedom from blemishes; and as large size is not as important as high color and freedom from blemishes, the largest fruit should not take the first prize unless it is equal or better in other respects than those in competition with it.

**Uniformity**—Specimens should be as nearly alike in size, form and color as possible.

**CLASS 9—BASKET DISPLAY**

Prizes in each section, excepting Section 31, to be: 1st, \$1.00; 2nd, 75c.

**APPLES**

Apples, 11-quart basket, packed without lemons—see specials—see rule 7.

News and Views of

## SPORT

## KELLEY WINS AND LOSES A PROTEST

The last time Russell T. Kelley's intermediate lacrosse team played in St. Kitts, the homesters rung in four substitutes on them instead of the customary three. Kelley at once protested the game and the Executive in their wisdom allowed the game to stand as played but fined St. Kitts \$25.00 for infraction of rules. They also ordered two games to be played for the group championship, one in St. Catharines today, and the other in Hamilton, on Saturday. A large number of local sports are taking in both battles.

## UNCLAIMED PRIZES

Charlie Stoddard announces that a number of prizes won in the various events on the field day at Stoney Creek, have not been claimed. The third prize in the married men's 100-yard dash, and the second award in 14-year-old girls' race are among them. In the drawing contest the holder of ticket No. 1,975, winner of the second prize, is asked to apply at once, and if this is not claimed within a few days, the prize will be given to the holder of ticket No. 1,519. In the children's drawing contest the second prize has not been claimed. This was won by No. 2,076, and will go to the holder of No. 2,135 if not secured at once.

## BRIDGEBURG GOOD

The Bridgeburg Intermediate O.A. B.A. team winners of the local groups, are still in the race. They entered the third round by defeating Galt in Galt on Saturday, score 3-2 in a thirteen innings game. Galt notched two tallies in the first, one in the third, and one in the thirteenth. McCarthy the Galt twirler fanned 23, only allowed 3 hits, issued two passes but was responsible for his defeat. Benner started on the mound for Bridgeburg but was replaced in the second by Williamson, who was very effective with men on the bases.

## TENNIS

Defeating Miss Mary Patterson by scores of 6 to 4 and 6 to 1 in two sets, Miss Mary Digger on Saturday claimed the silver challenge cup provided for the ladies' singles in the inter-club tournament being played between members of St. Johns Winona and Community Tennis clubs. The men's singles for which a silver challenge cup is also given were not completed. Arthur Digger in the semi-finals eliminated Fred Woodcock. Cliff Halsey and Reg. Gerrard are yet to play off, and the winner will meet Arthur Digger for the cup.

## FALSE TEETH FOIL PUBLICITY STUNT

Niagara Falls, Aug. 31.—Bobby Leach, who is said to have once went over Niagara Falls in a barrel, made two attempts to swim the Niagara River below the Falls yesterday and says that he would have succeeded in the second attempt if his false teeth had not come out. In grabbing for them he swallowed a lot of water and was unable to continue.

## CREEK WINS THE DISTRICT LEAGUE

The Stoney Creek team has been officially declared winner of the District Soft Ball League. Officially it is right as the league schedule was not completed the local team dropping

## REFILLS FOR "EVERSHARP" PENCILS

There's a great many different styles of refills for Eversharp Pencils. Seven different degrees of lead—hard or soft. And several styles of colored leads.

Let us help you to choose the right style for your pencil.

out. According to the local magnates they had a couple of protests in and when the meeting was called to decide same it was impossible to have the necessary evidence present. An adjournment was asked for and apparently granted but nevertheless the executive went ahead and dealt with the matter deciding against the Grimsby team. Under the circumstances the local management felt the only thing to do was to withdraw.

The official standing was announced as follows:

Stoney Creek	won 10	lost 7
Fruitland	" 9	" 7
Bartonville	" 8	" 3
Grimsby	" 7	" 2
Winona	" 6	" 10

The season was a more or less troublesome one, protests and arguments continually developing.

## FRASER'S BOYS BEAT BEAVERS

The Niagara Falls Senior O.A.B.A. team secured a comfortable lead over the Hamilton Beavers, on Saturday, with a 10-4 score. Fraser's crew tallied four in the second and six in the sixth, while the best the Beavers could do was one in the third and three in the eighth. Nova, the Falls pitcher was very effective while his team mates found Hardman no puzzle. It looks as if Gene is going to add a Baseball Trophy to his already large collection.

## NEW SWEATERS

The Soft Ball team of the Metal Craft and Merritt combination are sporting dandy new sweater coats of white trimmed with dark blue and a monogram (M. C. M.).

## GOOD BYE SOO

Yesterday's Globe carries the following: "Last night's despatch from the Canadian Soo to the effect that an announcement will be made this week concerning the severance of that club's relationship with the Canadian Amateur Hockey Association, and Canadian hockey generally, means that one of the picturesque teams of

the past decade is out of business as far as the Allan Cup is concerned. The Soo team will join the United States Hockey Association group composed of Marquette, Eveleth, Hibbing, St. Paul and Minneapolis. Inability to gain admittance to the senior series of the Ontario Hockey Association, because of the objection of other teams to taking the long trips to the Soo, caused the latter team to join the U. S. league. The Northern Ontario Hockey Association senior series does not offer enough games for the Can 1 Town team. The ten home games offered by the U. S. league will provide more gate receipts, which is a real consideration in the Soo. No games will be played by the Soo team with Canadian sextets unless peace is declared between the C. A. H. A. and the governing body of hockey in the States. Despatches say that the team of last year is intact and that a number of additional players have found their way to the banks of the canal. This is sure bad news for the sports of the Fruit Belt. The Soo folks were great contributors to the welfare of this district last season and it was hoped that they would kick in again next season. Let us hope that some other town will take pity on us next March and donate as cheerfully and splendidly as MacNamara and Co. did.

## OPTOMETRY

It's value to the public.  
By VERNON TUCK, R.O.  
Grimsby, Ontario

We now purpose considering astigmatism, a very prevalent, distressing and detrimental error of vision. Astigmatism is the result of the eye being improperly shaped. It is responsible for more headaches than any other one cause. Every moment that the astigmatic eye is in use, either for close or distant seeing, it is subjected to strain. The only rest such an eye gets is while it is closed. In thousands of cases astigmatism is present without the knowledge of the patient. It often happens that a person of strong physique and much reserve energy will be for many years unacquainted with the fact that he is astigmatic.

*Vernon Tuck*  
(To be continued next week.)

## ROMANCE IS NOT DEAD HERE YET

Beamsville, Aug. 31.—A romance that had its origin on a ranch in far-away Glasgow, Montana, some eight years ago had its culmination here on Thursday last. Views of Montana scenery sent to a family in Toronto by a young rancher years ago prompted a young woman of the family to write a return thankful letter. The correspondence has been kept up through the years and last Wednesday the rancher arrived in Toronto to make the acquaintance of his correspondent. He received a short dis-appointment, though, for he was told the young lady was with the service girls in camp near Beamsville. He lost no time in arriving on the scene, a typical westerner, hat, boots and all. Needless to say, he was soon put in touch with the lady, who received a respite from camp duties for a time. The westerner disposed of his cattle before leaving Montana and states that he will likely reside in Toronto, so that apparently everything has gone well. —Hamilton Spectator

## C.N.E. NOTES

Many factories all over Ontario are closing all day Saturday, September 5, to give their employees a chance to visit the Canadian National Exhibition over Labor Day.

It takes the wool of ten million sheep to supply the Canadian demand for woolen and knit goods. The secret of how it is done is being revealed at the Canadian National Exhibition.

Auto pushball, more thrilling than auto polo, is the latest dare-devil pastime to be introduced at the Canadian National Exhibition this year. It is played with four cars and a huge rubber ball weighing 250 pounds. It has a spine-creeping effect on the spectators.

A bearded lady with three marriages to her credit is among those present on the Midway at the Canadian National Exhibition.

Cash prizes of \$1,000, and the title of "Champion Band of Canada," will go to the winner of the band competitions on Music Day, at the Canadian National Exhibition.

Community singing will again be conducted on the grandstand at the Canadian National Exhibition. Over 25,000 people take part each night.

## Labor Day

LABOR DAY is the one holiday which we can celebrate for its own sake unhampered by patriotic or sentimental traditions. It is just a plain holiday designed for pure unadulterated enjoyment, and very fortunately it happens at a most pleasant time of the year.

A house party is a particularly happy form of entertainment for young people just before they turn to school in the fall.

It need not involve too much effort on the part of the hostess if she is ingenious enough to combine work with amusement. One clever mother who had a group of her daughter's friends for a week and offered her guests an opportunity to help with the household tasks, in this way, each morning after breakfast laid a colored slip of paper were passed around, two of each color, and on each were inscribed one or two small tasks with directions in detail for accomplishing them. Thus in groups of two the girls prepared the vegetables, washed the living room, fixed the lunch for the picnic or party which was part of the day's fun, while the boys washed the car and cleaned the porch.

This plan would be especially valuable at a summer cottage where there are so many extra things to be done. And unless you try it, you don't realize how much fun young people get out of working, and how much more they appreciate the good times you plan for them when the work is finished. Boys love to show off their superior ability in making lemonade, or beating eggs. Give them a chance and they will enjoy themselves twice as much as if everything were prepared for them.

The most difficult part of any house party is, of course, the food, because it has to be served often and in quantities to appease healthy young appetites. With a little previous planning, however, even this task can be reduced to a minimum. Arrange the menus and do as much of the ordering as possible before the guests arrive.

A sample list of menus for a Labor Day week-end party is given below with a few recipes for several items.

## Sunday Breakfast

Cantaloupe  
Cereal  
Corn Flakes or Cream of Wheat  
Date Muffins  
Scrambled Eggs  
Coffee

## Sunday Dinner

Baked ham  
Scalloped Potatoes  
Spinach with Egg Sauce  
Pineapple Salad  
Peach Pie  
Coffee

## Sunday Picnic Supper

Sandwiches  
Pickles—Olives  
Coffee  
Chocolate Eclairs  
Monday Dinner

Roast Veal or Chicken  
(Prepared on Monday)  
Scalloped Potatoes  
Creamed Peas  
Tomato Salad  
Hot Rolls  
Cake with Hot Chocolate Sauce

## Date Muffins

4 cups Flour  
4 tablespoons Crisco  
1 cup Chopped Dates  
4 tablespoons Sugar  
2 Eggs  
2 cups Milk  
1 1/2 teaspoons Salt  
2 cups Baking Powder

Sift flour, salt, sugar and baking powder. Add in egg, milk, and melted crisco. Add dates. Pour into greased muffin tin. Bake in a hot oven 375°—20 minutes.  
Cake with Hot Chocolate Sauce  
8 cups Flour  
4 cups Crisco  
2 Eggs  
1 cup Milk  
1 1/2 cups Sugar  
4 tablespoons Baking Powder  
1 teaspoonful Vanilla  
1/2 teaspoon Salt  
Cream crisco. Add sugar gradually, then beaten yolks. Sift flour, baking powder, and salt and add alternately with milk to first mixture. Add vanilla and mix thoroughly. Fold in beaten whites. Bake in square sheets in a hot oven 375°—25 minutes.

Hot Chocolate Sauce  
2 squares Baker's Chocolate  
2 cups Sugar  
4 tablespoons Corn Syrup  
2 tablespoons Crisco  
1 teaspoonful Vanilla  
1/2 teaspoonful Salt  
1/2 cup Boiling Water  
Mix sugar, syrup, and chocolate which has been cut in pieces. Stir in boiling water. Cook until it holds together when dropped into cold water. Add cocoa, vanilla, and salt after removing from fire. Pour into 25 individual squares of foil.

## Fresh Peach Pie

4 cups Pastry Flour  
2 cups Crisco  
2 teaspoonfuls Salt

Water  
Sift flour and salt together. Cut crisco in with two knives. Add just enough water to hold mixture together. Line two pie tins.

Fill each with two cups fresh peaches which have been peeled, stoned and sliced. Add 1/4 cup sugar to each pie. Dot with bits of crisco. Cover with the top crust. Make an incision in center of pie to allow for the escape of steam. Bake in a hot oven 375° for 20 minutes then moderate for 10 to 15 minutes longer.

Chocolate Eclairs  
6 tablespoons Crisco  
1 cup Boiling Water  
1 cup Sifted Flour  
4 Eggs  
Salt

Bring water to a boil in a sauce pan. Add crisco and stir until melted. Add flour slowly, stirring vigorously all the time. Boil until it forms a paste which clears the pan. Turn into a mixing bowl. When cool, add eggs one at a time, beating each in thoroughly before adding the next. After last egg is added, beat vigorously about 1 minute. Shape pieces of the mixture 4 1/2 inches long by 1 inch wide. Bake 10 minutes in a moderate oven—350°. When done roll carefully and add 2 tablespoons of the following filling.

Filling  
1 cup Milk  
1/2 cup Sugar  
2 tablespoons Cornstarch  
1/2 teaspoon Salt  
1 teaspoon Vanilla

Mix sugar and cornstarch and add to scalded milk. Cook until it thickens. Beat egg, add, and cook one minute longer and then add vanilla and salt.  
Place top portion back on each eclair and coat with following frosting.

Chocolate Frosting  
2 squares Chocolate  
1 teaspoon Vanilla  
2 tablespoons Hot Water  
Confectioners' Sugar  
1/2 teaspoon Vanilla  
Melt chocolate over boiling water, add vanilla and hot water. Cool and add enough sugar to be of right consistency to spread.

One reader may obtain free a new 60 page cook book by addressing the National Household Service, 242 E. 57th St., New York City.

Miniature electric cars, are being operated at the Canadian National Exhibition to transport the crowds over the miles of paved streets.

An attendance of 175,000 is expected on Manufacturers' Day, Saturday, September 5th, at the Canadian National Exhibition. Heads of industry plants the Province over are co-operating to make the day an outstanding one in Exhibition history.

The Canadian National Exhibition on boys double the attendance of the last year of the State Fairs across the line, and in most cases the figures are four times as large.

Jolly Edna, one of a Canadian family of 12 children, all heavyweights, is helping to lure the crowds into the Canadian National Exhibition Midway. Her demure sister, weighing a paltry 213 pounds, is associated with the show.
